

EDUCATING HEALTHCARE PROVIDERS  
ABOUT RISK & PATIENT SAFETY

## ELM Risk & Safety Institute

### RESIDENCY PROGRAM

The ELM Residency Program is an online, three-year curriculum that can improve your residents' understanding of key risk management principles, while developing critical thinking and situational analysis skills.

ELM's Resident Program will help you:

- Increase a resident's confidence to identify and mitigate risk in his/her clinical practice
- Set a standard of heightened awareness of patient safety and risk management for your resident physicians
- Evaluate a resident's understanding and application of competencies through online testing
- Provide convenient education 24/7, from any internet connection
- Generate instant, automatic documentation of a resident's progress for individual competency profiles and program compliance

ELM's online Residency Program is a proven and substantive method for helping academic medical centers to manage risk and promote patient safety. Additionally, this program addresses two ACGME Core Competency requirements: 1) Practice-Based Learning and Improvement and 2) Systems-Based Practice.
